EuGMS MISSION

- To support the development of health services suitable for an ageing population
- To develop geriatric medicine in Europe as an independent specialty caring for older people with age-related diseases
- To enhance access of these specialist services to all European citizens.
- To promote education and continuing professional development, through an annual Scientific Congress, regional events, activity of the Special Interest and Task & Finish Groups, our journal European Geriatric Medicine and collaboration with the European Academy for Medicine of Ageing and UEMS
- To promote evidence-based consensus for the most effective preventive and treatment strategies for older people in Europe

Workforce development

The Multi-Professional Capability Framework for Frailty Management and Prevention

- **Review the UEMS/EuGMS undergraduate curriculum**
- **Review the specialist geriatrics training curriculum**
- **Collaborate with EICA on training for non-geriatricians**
(eg successful course for nurses working with older trauma patients)
